The Piscassic Greenway is owned and managed by SELT and is open for public enjoyment. Please follow these visitation

# Enjoy the Trails!

## **Nature's Corridor**

The Piscassic Greenway links two blocks of protected land in Newmarket and Exeter to create more than 4,000 acres for public use. In 2005, much of this land was slated as a 102-unit subdivision, but SELT, the Trust for Public Land, and the Town of Newfields stepped in and raised funding to conserve the land as open space for the community.

The Greenway has since grown with the acquisition of the 69-acre Cole Farm, the 59-acre Tucker Tract, and the 32-acre Gaziano Tract. The land offers open fields, ponds, wetlands, mature forests, productive soils for farming, and shoreline on the Piscassic River.

There are approximately 3.5 miles of trails on the property that are available for hiking, hunting, cross-country skiing, and bird watching. Mountain biking, snowmobiling and horseback riding are also allowed, but only on designated trails. Trails are blazed and range from easy to moderate difficulty.

Visitors can park at the lot on Bald Hill Road in Newfields or a small parking area at the end of Halls Mills Road. (Please do not block abutters' driveways.) Visitors can also access the Greenway via a short spur trail off the Rockingham Recreational Trail that connects to the Byrne Trail.

# **Trail Descriptions**

### Otis Hill Trail

This trail is 0.6 miles in length and connects to the portion of Halls Mill Road that is designated as Class A trail. This trail is open to mountain biking.

### Byrne Trail

This gently rolling mile-long trail runs from the northern to the southern edge of the property. It is open to mountain biking, snowmobiling and horseback riding.

# Byrne Spur

Accessible from Halls Mill Road, this 0.4-mile trail runs into Byrne Trail and loops around to Otis Hill Trail making a 1.6-mile loop around the Greenway. A bridge over the wetland offers a platform for visitors to sneak a glance at turtles, birds, and other wildlife in the beaver pond.

### Mraz Trail

This trail begins on Bald Hill Road and offers an easy 1.7-mile round trip loop through fields and forests. Both the north and south loop connect to the Byrne Trail.
